

All members are encouraged to put forward speakers to join us throughout the year:

- Must not be from sales perspective
- No standard CCTV / Access / system type talks. Innovative, new & emerging tech products would be great.
- Specialist knowledge, academic, legal process, Immigration, HR Directors, Financial Controllers & GM's should also be invited if they wish to share their experiences with us.

This also extends to members of your team who may have developed a particular expertise or knowledge of a subject – this is one way of engaging with future leaders and contributes to their personal development.
